

Quality Policy Statement

GSS was established in 2006. We have offices in Newcastle and Serbia. We provide Project Management, Design and commissioning services for the transmission and distribution sector, our projects are based throughout the UK.

GSS demonstrate sound Safety, Health, Environmental and Quality commitment to our employees and Clients through our UKAS accredited management system which is integrated to ISO9001, ISO14001, ISO45001 & ISO27001.

GSS's quality policy has been developed with a view to ensuring that statutory and regulatory requirements are met and all company stakeholders' requirements are identified and addressed.

The system will cater for the conformance to customer and other requirements and so far as reasonably practicable, the implementation of actions which minimize the impact of our activities on the environment.

The company will strive to:

- Provide continual cost-effective improvements in the performance of systems, processes and activities with a view to satisfying the needs and expectations of customers [internal & external], employees, suppliers and subcontractors and as a means of improving the business, protecting employee health & safety and minimizing the impact of our activities on the environment
- Evaluate company activities with a view to identifying those hazards which pose a significant risk to service conformance and compliance with health, safety and environmental legislation and establishing improvements to their performance
- Ensure that the roles, responsibilities, authority and entitlements of management and employees are clearly defined, documented, communicated and understood
- Provide adequate resources materials, documents, personnel and equipment to implement this policy
- Ensure all employees are developed and trained in accordance with personal and company needs and requirements, focusing on the prevention of product and service non-conformances, health, safety and environmental accident and incidents
- Promote an attitude of teamwork and co-operation throughout the company
- Ensure that all systems and processes are effectively controlled and continue to meet applicable national/international standards, statutory/regulatory requirements
- Provide a system of measures which allows monitoring of services and processes with a view to demonstrating our commitment to continuous improvement
- Establish objectives and targets which supports and monitors the realisation of this policy
- Ensure this policy is communicated, understood and implemented throughout the organisation and is freely available to Company Stakeholders and the public
- Review this policy at least annually and make the necessary changes to reflect external and internal influences

NB: This policy is made available to employees throughout the company
